MANITOBA POPULATION ESTIMATES - July 1, 2003

	July 03	April 03	July 02

NET MIGRATION	**(January to July)**	**2003**	**2002**
	Interprovincial	-568	-1,217
	Total	2,508	1,450

Manitoba's total population was estimated at 1,162,800 persons as of July 1, 2003, up 2,900 persons from the April 1, 2003 estimate. Population growth continues on an annual basis, with Manitoba' s increase since July 1, 2002 estimated at 7,300 persons, or 0.6%. A large portion of Manitoba' s estimated population gain during the first half of 2003 was the result of immigration.

We recorded a net loss of 568 persons to other provinces through interprovincial migration in the first half of 2003, a sharp improvement from the net loss of 1,217 persons in the first half of 2002. Manitoba normally records a net loss due to net interprovincial migration. In the first half of 2003 Manitoba had a net loss of 568 persons. Manitoba has not had a better first half net interprovincial migration number since 1983 (833 persons). In the first half of 2003, Manitoba gained population on a net basis chiefly from Saskatchewan (73), while most of the losses were to Alberta (-355), Quebec (-124) and British Columbia (-104).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 2,508 persons in the first half of 2003, the largest since the first half of 1983 (2,725 persons).

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 1971/72 onward. This MBS report incorporates all revisions.

Tables 6, 7 and 8 present the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Tables 1, 2 and 4, respectively.
